SIZE GUIDE

Use the tables below to find the correct size for your child. Our children's sizes are measured according to height. However, the more measurements you take, the better your chances of selecting the correct size. If your child is between two sizes, we recommend that you select the larger size.

For example: If your child is 8 years old and 136 cm tall, you should select 140 in our single sizes and size 134-140 in our double sizes.

HOW TO MEASURE YOUR CHILD

Measure directly on the child's body (without clothes).
All measurements = centimetres.
Sock sizes = shoe sizes.

A Height From top of head to floor – measure with feet together.

B Chest Measure at underarm, arms down along the body.

C Waist The child's waist measurement at the narrowest point.

D Hip Hip measurement at the widest point.

E Inseam Measure from crotch to floor down the inside leg.

F Sleeve length Measure from nape along the arm to the wrist.

G Head measurement Wrap a measuring tape around the head just above the eyebrows.

FULL SIZE RANGE 80-152 cm

A Height (Size)	Age	**B** Chest	**C** Waist	**D** Hip	**E** Inseam	**F** Sleeve length
80	1	52	50	54	30	38
